### The Digital Transformer

Formerly known as Prestariang Berhad, AwanBiru Technology Berhad (Awantec) is a Technology and Talent Pioneer that has evolved from being Malaysia's largest ICT software and training service provider to a Digital Transformer.

The principal business of Awantec under its Technology Division, consist of multi-cloud management services, which encapsulate Infrastructure as a Service (IaaS), Platform as a Service (PaaS), Software as a Service (SaaS) and Anything as a Service (XaaS).

Its Talent Division on the other hand, provides the synergistic offerings of talent development services, and full lifecycle talent management services, which offers profiling, training, certification and placement services.

### Who We Are

## One Platform, For All Your Work

Planally is the next leading name in the Digital Workplace Software industry providing a dynamic Work Management Platform.

It is a highly dynamic and configurable platform that helps organizations and teams transform their manual processes into digital applications within minutes.

Planally has connected over 2000 teams with an estimated value of USD 75 billion being a testament to the product.

# Overview

Planally is a robust and dynamic no-code platform that lets you transform your manual processes into digitalized apps within minutes.

- 1 Planally allows you to digitalize, automate & standardize your unique processes, tasks, documents, endorsements, and approvals and helps you streamline work and unite both stakeholders and data silos driving a focus on decision-making, well-ordered work delivery, greater transparency, accountability, governance, and compliance.
- 2 Planally is the only Work Management Platform that offers the Phase Gate Methodology empowering organizations and teams with absolute control over every possible area of their business by establishing a well-ordered workflow from start to finish.
- 3 Managing overall performance goals right down to each individual task has never been easier as Planally's intuitive work management features, offer unparalleled levels of visibility and control over your work, in one affordable, accessible, and easy-to-use platform resulting in greater efficiency, minimal risk of error, standardized execution and consistent results every time.

The 'Assignee' section shows a list of users. The 'Planned Date' section has a 'Select date' button. The 'Documents' section shows 'No Documents Attached'.

The 'Background' section has a 'Checklist' with items like 'Background Check', 'Audit Review', 'Financial Review', and 'Client Pipeline'. The 'Discussion' section has a text area for comments.

# Solution Proposal

We support organizations in their digital transformation journey through our Work Management Platform, Planally.

Through Planally, users can easily create any number of apps, each with its unique process, tasks & activities, workflows, endorsements & approvals, roadmaps, org charts, documentation, permissions, audit trail, dashboards, and notifications.

With Planally, any organization can reduce its dependency on IT vendors and ensure that the right people, have the right information, at the right time.

## Planally also brings other benefits including:

- Streamlined tracking, documenting, and analysis of work in your organization.
- Improved transparency and accountability resulting in informed decision-making with clear outcomes.
- Optimized performance with the effective allocation of resources and budget.
- Greater trust between your organization and its stakeholders by optimizing collaboration and information-sharing between teams.
- Improved governance, compliance, and auditing capabilities of your organization.
- Effective training of teams on all policies and standard operating procedures.
- Efficient data management with data captured, organized, stored, and analyzed on a single platform.

## Differentiating Factors

- Multiple Apps**  
One-stop centre to easily create multiple apps for every work process.
- Process Standardization**  
Standardize any process across your organization.
- Full Configurable**  
Fully configurable without the need for any customization.
- Dynamic Phase Gate**  
The only fully dynamic Phase Gate Platform in the market.

**Multiple Roadmaps**  
Ability to set up any number of roadmaps for any app.

**Private Cloud**  
Capability to deploy on client's Private Cloud.

**Local Support**  
Local Support Team based in Malaysia.

**Training**  
Online and Onsite trainings available to all users.
