Cost-Effective, Modern Video Communications

Zoom's secure video communications solution is easy to deploy, manage, and scale. Benefiting agencies, government departments and the public, Zoom can reduce cost, improve efficiency and enhance internal collaboration.

Expand services with video collaborations

Boost productivity

Reduce travel costs by hosting virtual meetings, trainings, recruitment & outreach.

Maximize your resources

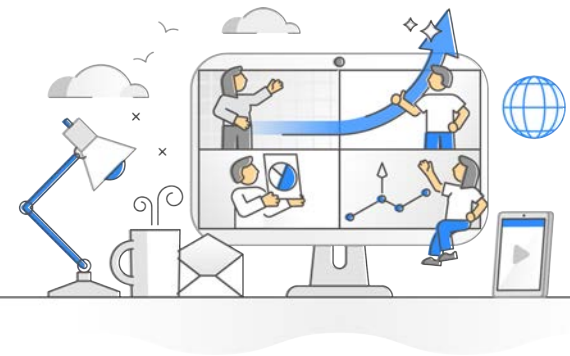

Utilize resources and hardware you already have.

Extend citizen services

Increase citizen engagement and education with real-time video communications.

Zoom Solutions for Government and Enterprise

HD Video and Audio

- Exceptional clarity and quality for meetings, hearings, health and emergency services.

Security and Encryption

- Zoom enables FERPA compliance and provides 256-bit AES encryption.

Recorded session review

- Save your meetings for consultation and review.

Any device and operating system

- Join virtually, from any device, on any operating platform.

Enhanced collaboration features

- Collaborate by annotating directly on the shared screen so that notations are visible to all attendees.

Accessibility for all participants

- Ensure that everyone can participate equitably with closed captioning and keyboard shortcuts.

Decide with Data

- Track event registration, attendance, ticket sales, revenue, and more.
- Zoom Events has analytics to help you understand your event performance and improve your virtual events.

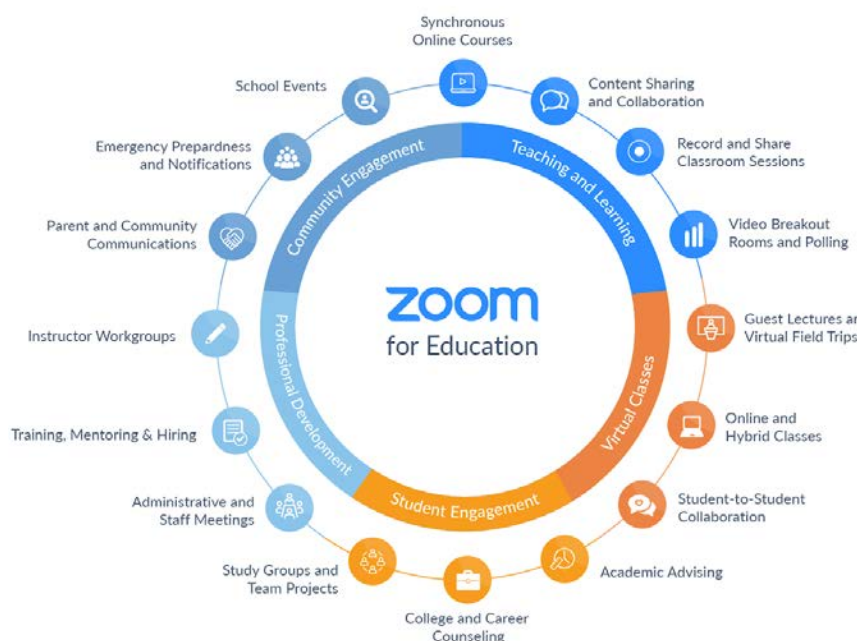

Zoom For Education

No matter where education takes place, Zoom can engage students, faculty, and staff for learning, collaboration, and administration.

Zoom supports remote and hybrid learning environments for primary and secondary schools, and higher education.

Connect your Education Ecosystem

A complete unified communications platform that enables new ways teaching, learning, and working across educational environments.

Zoom solutions for Education

- ✓ Manage your classes**
 Waiting Rooms, customizable virtual seating chart, class recording, multi-pinning and multi-spotlight, and more.
- ✓ Customize the learning experience**
 Create custom integrations with Zoom's LTI Pro which works seamlessly with LMS providers such as Canvas, Blackboard, Desire2 Learn, Moodle, Schoology, Sakai and more.
- ✓ Enable security and compliance**
 SSO for the classroom, in-meeting security features, and other measures help secure your Zoom classroom, prevent disruptions, and enable FERPA and GDPR compliance.
- ✓ Increase engagement**
 One-click content sharing, annotation, digital whiteboarding, Breakout Rooms, polling, reactions, and high-fidelity music mode encourage participation and student engagement.
- ✓ Ensure accessibility**
 Closed captioning, live transcription, keyboard shortcuts, and other accessibility features give students access to the services they need.
- ✓ Support flexible working environments**
 Unify your communications with Zoom Phone, Zoom Chat, Zoom Video Webinars & Zoom Rooms to optimize academic service operations, enable flexible work environments, and support business continuity.

Zoom Rooms

The modern workspaces for hybrid teams, Zoom Rooms bring HD video collaboration into any space - in the office, in the classroom, or at home - and enable in-person and remote participants to interact in real time. Zoom Rooms are the conference room experience you've always wanted.

Zoom Rooms is a software-based room system that provides an integrated experience for audio conferencing, wireless screen sharing, and video conferencing.

“ Zoom Rooms Appliances are purpose-built to make it easier than ever to scale, deploy, and manage Zoom Rooms. ”
